

## Neighborhood Grant Program

The Neighborhood Grant Program was introduced last year at National Night Out, providing resident groups matching funds for neighborhood improvement projects.

The City of SeaTac is committed to promoting and sustaining an environment that is responsive to resident involvement.

It's the goal of the Neighborhood Grant Program to build viable partnerships between the City and its residents.

The purpose of the program is to encourage the formation of neighborhoods that work together for neighborhood identity through clean up and beautification projects. Some examples of grant programs are identity signage for neighborhood entry points, curb side garbage clean up day, or landscaping of traffic islands. Local beautification projects show that residents place value in their neighborhoods which may help in reducing crime and increase property values. Citizens will typically fulfill their half of the matching funds through volunteer labor.

Projects must meet the program's criteria and be approved by the Council. Most projects will be limited to \$5,000.00 but the Council will retain the flexibility to approve larger projects, all funded by a \$30,000.00 neighborhood revitalization appropriation approved in the 2005 budget. The City Council is encouraging citizens to participate in the program by working with their neighbors to develop and implement qualifying projects. Please contact Toni Azzola at 206-973-4763 for information, an application packet or brochures.
